

Please keep K-Love in the Cincinnati Area on 104.3FM.

This station serves me as a resident of my local community by encouraging me to reach out and encourage others. It encourages me to not only be concerned with myself, but to be concerned with the needs of others. It also encourages me to give more money to charity, and not think only of my wants and desires. It also creates in me a love for my family and my community.

The effect that removing this program from the FM radio in Cincinnati would have on the community is that there would not be much more of an option as to what people could listen to in order to be encouraged on a regular basis. I am not trying to be cliché or repetitive, but I do believe that this station encourages whoever may choose to stay tuned for but a mere five minutes. I know that there are several "clean" stations such as Warm 98.5 that protect children from hearing crude language and what not, K-Love not only does this but it actually uplifts the spirit as well. There are no sad songs on this station, they are all encouraging.

The service provided by K-Love is in public interest because it will cause members of the community to be more cheerful and uplifted. I have found that listen to K-Love will take me out of a depressed mood. Through the music they play and the words they speak they help me realize my purpose in life. I don't need to focus on what others may think of me-which usually depresses me- I only need to think of what I can do for others. Any community could afford to have even a little bit of this kind of encouraging message to help them grow together in love.

Thank you for your consideration of my petition.

Yours truly,
Crista Rogers
